It was clear from Mikhael Kale's Spring/Summer 2017 collection that the Canadian designer's current obsessions include laces and snakeskin. Known for his focus on details, we saw a lot of these intertwined throughout each garment. Hoodies, bellbottoms and skirts were all tied together with white shoelaces, a trend that has made quite an appearance this season, but that Kale still managed to give the over-saturated trend a touch of uniqueness. Tough snake and crocodile-embossed leather motorcycle jackets contrasted with fluffy, bubblegum pink fur coats. A flattering white and purple floral silk mermaid dress hugged curves in all the right places, standing out from most of the baggier pieces in the collection.

For comfier looks, oversized, gray crew sweatshirts were embroidered with the word "Kale" in different colors, a tongue-in-cheek branding Kale has used season after season. Each outfit was complimented with a pair of domineering, pointy black booties and some featured thick, oversized belt buckle chokers, another runway-heavy trend that Kale was able to put his own twist on. Although this year's designs featured conventionally feminine, soft pastels, they were nothing short of electric. Kale created pieces for everyone: those who live on the adventurous side and the others who would prefer to stick to the couch in an oversized hoodie.
